When its no longer..a hot item... and..more affordable in my price range..(clearance):blush: Or.. if i can get it in the library...

I would like to read this book.. and maybe get some for my friends..(xmas)if its..even more affordable..(garage sales, thrift(years from now...)):blush: :blush: :blush:

Its a very engaging story.. that brings hope. The reality always looks overwhelming and bleak.. but... the small miracles that are seeds..that she is touching on.. gave me joy and peace to hear of. I got to listen to her interview and.. I was very excited! I know I will be enthralled in her story...

This is a book.. that i wanted to share with my soldier boy. When I was praying fervently for just the right message to send him off with. God answered my prayers.. almost immediately..(hours later, btw..) While I was doin dishes. I said that.. cause i wanted lev to know that i wasnt out there searchn like mad.. i was just doin my chores and He answered my prayers!;) He also gave me another title.. of a book that i will touch on later... So i will feverishly try to get my hands on these books in some way.. if its only the library..whatever.. and.. get this to him.

Her story.. reminds me of our dear friend, Alison... She has that perspective of both worlds..US & Scotland.. she has a special oppinion that... others dont always get to appreciate or base their lives upon... But.. I think its awesome. :) To see and live different ways of life. And to understand both groups in a way... a powerful position in my book.:) (i look forward to more stories from her someday...: )
