
The Model Prisoner, Tracy Kirby with Tony Thompson

Unusual one for me but I'd run out of books for the holiday and my Mum said it was good.

It's the true story of Tracy Kirby, who was a well-known page 3 girl in the 80's.

It's one of those books that you read in a day.

I struggled through the first few chapters and was about to chuck it in the bin! My initial reaction was that I couldn't believe the woman could be so bloody stupid, time after time. As I got into the second half of the book, It describes how she ended up on remand, for almost two years, in Holloway, facing a possible 18yr sentence. Remind me never to get banged up there! It sounded horrific. I actually cried a couple of times. She had a bloody hard life. I can't help but think though, that she was so stupid and naive that she brought a lot of it on herself. I still felt sorry for her for all that she went through. She wasn't a bad person.
